

## **TONIGHT I'M HERE FOR YOU**

somewhere  
somebody's fighting  
somewhere  
a baby is cryin

people  
live for the money  
people  
live to love

the world  
is a very hard place  
but the world  
is a place to stay

and listen to  
what i'm saying  
cause baby i'm here tonight

no matter what you say  
no matter what you do  
no matter what you say  
no matter all your pain  
cause tonight i'm here with you  
cause tonight i'm here for you

downtown  
somebody is escaping  
somebody will Get hurt

and keep and eye  
at your window  
keep and eye for me

no matter what you say  
no matter what you do  
no matter what you say  
no matter all your pain  
cause tonight i'm here with you  
cause tonight i'm here for you

i got pockets full of money  
don't get scared honey  
we can go where you want  
we can do what you want  
forget your past, tomorrow is tomorrow  
forget your past and all your worries  
and look forward, look for the sun

follow the light, live your life  
and free your mind

no matter what you say  
no matter what you do  
no matter what you say  
no matter all your pain  
cause tonight i'm here with you  
cause tonight i'm here for you

and damn them who try to teach us how to live  
and damn them and their stupid bullshit  
we don't need them to know what we feel  
we don't need them to know what we want  
and free your mind

no matter what you say  
no matter what you do  
no matter what you say  
no matter all your pain  
cause tonight i'm here with you  
cause tonight i'm here for you
